WORK EXPERIENCE

INDUXSOFT DATA SERVICES S DE RL DE CV

FullStack Software Developer

Dec. 2021 - May 2024

Tuxtla Gutiérrez, Chiapas

- Induxsoft is a software company with a user base across Mexico, Spain, Central and South America, their systems processes and manage countless business operations every day, offering a reliable, fast, efficient, and adaptable platform for the administration and operation of companies of all sizes and industries.
- As a software developer, I was responsible for designing, developing, and deploying a wide range of systems from minor feature enhancements to fully complex platforms while consistently aligning with the company's quality standards and strategic vision. My role was dynamic and adapted to the specific needs of each project, encompassing tasks such as:
 - Planning and architecture design
 - Server configuration and deployment
 - Backend development of API services
 - Frontend user interface design
 - Full-stack application development
 - Project deployment and release management
 - Occasional technical support and troubleshooting
- Technologies used: DKL (proprietary language), C#, JavaScript, HTML, CSS, Bash, MySQL, SQL Server.

CEDIS PALACE RESORTS

Junior Programmer Analyst (Internship)

May. 2019 - Aug. 2019

Cancún, Quintana Roo

- The Palace Company stands out in the world of luxury hospitality, offering exceptional services at exclusive hotels, resorts, and vacation clubs on an international scale.
- I resolved employee registration issues within the Data Center department by developing a system using C# WinForms, integrated with the company's database supported by AWS services and Windows Server Active Directory.
- Technologies used: C#, SQL Server, AWS, Active Directory.

EDUCATION

UNIVERSIDAD TECNOLÓGICA DE LA SELVA

Bachelor of Engineering in IT - Computer Systems Track

May. 2021

Rayón, Chiapas
